PETITION TO ACCEPT COLOR DRAWINGS UNDER 37 CFR §1.84(a)(2) and (b)(2)

Commissioner of Patents and Trademarks  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

Sir:

This is a Petition pursuant to 37 CFR §1.84 (a)(2) and (b)(2) for the Office to accept the color drawings filed with the above referenced application on February 1, 2001. Applicant submits with this Petition a fee of \$130.00 pursuant to 37 CFR §1.17(h). Any underpayments or overpayments associated with this fee should be charged or credited to Deposit Account 07-1985. Applicant also submits with this Petition three (3) sets of the color drawings (specifically, drawings sheets (*ADD SHEETS HERE*)). Finally, Applicant has submitted an Amendment concurrently with this Petition that adds the following language as the first paragraph of the brief description of the drawing section of the specification:

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

10/26/2004 AWONDAF1 00000049 071985 09773475

01 FC:1460 130.00 DA

The Supervisory Patent Examiner is requested to accept this Petition as the enclosed color drawings are the only practical medium by which the Applicant can disclose the invention he seeks to patent. Specifically, all the color drawings the Applicant seeks to add relate to color maps and diagrams which show either a full spectrum of color or at least two colors. Since color Terrain Maps and diagrams along with their associated color degree and color direction are important aspects of the present invention, these drawings must be in color for others to fully comprehend the scope and nature of Applicant's invention. Therefore, the Supervisory Patent Examiner is respectfully requested to grant the Petition.

22 Sept. 2004  
Date

Respectfully submitted,

---
